

Division of Forestry Resources

District Foresters are professionally trained foresters employed by the Department of Natural Resources’ Division of Forestry to assist private forest owners with the management of their forestlands. This is accomplished through the administration of incentive programs such as the Classified Forest program and cost share assistance programs to implement forest stewardship practices. District Foresters also provide professional technical advice on timber harvesting, tree planting and other forest management activities. To arrange a woodland consultation contact your District Forester by e-mail, office visits or telephone.

Private Nurseries

Private nurseries sell bare root seedlings. The membership listing on the Indiana Nursery and Landscape Association Web site ([www.inla1.org](http://www.inla1.org)) can assist in locating a private nursery. The IDNR nursery program at (812) 358-3621 maintains a list of private nurseries that provide bare root seedlings for conservation plantings.

Other Resources

Local Soil and Water Conservation Districts may sell seedlings. Check your local telephone directory or call the ISWCD main office at (317) 692-7325 for the phone number of your local SWCD office.

OUR MISSION

To grow and distribute to Indiana landowners high quality plant materials for conservation plantings. Conservation plantings include plantings for timber, wildlife, windbreaks, soil and water protection, reclamation, carbon sequestering, and education.

QUALITY

We produce the highest quality stock that our knowledge and resources permit. We produce a diverse group of species from the best seed sources available, which includes progeny tested seed orchards. We mix all seed lots to ensure that each customer receives the highest quality and most diverse stock available.
